DETAILED ACTION

1. This office action is in response to Applicant's response filed on 01/24/2006.
2. Claims 1-12 are pending.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. **Claims 1, 3, 4, 5, 7 and 8-12 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Foster in view of Segal et al (U.S. Pat. No. 6,820,804).**As per claims 1, 3, 4, 5, 7 and 8-12 Foster substantially discloses a financial transaction system such that Applicants' step of providing a secured network that stores consumer data and approved vendor information, Applicants' step of receiving transaction information at the secured network, and Applicants' step of processing the transaction information to determine whether the transaction information conforms with the stored consumer data and approved vendor information reads on col 8, lines 19-28, and applicants' step of delivering the stored consumer data to the vendor if the transaction information is determined to conform with the stored consumer data and approved

Art Unit: 3621

vendor information reads on the message to the merchant, from the system, of the cardholder's shipping address, col 8, lines 47-50.

Foster fails to explicitly disclose Applicant's newly added limitation wherein said receipt of the stored consumer data by the vendor enables the vendor to receive payment for the e-commerce transaction. However, Segal discloses a system/method for performing a purchase transaction in which a consumer provides a merchant with a credit card for payment. The merchant then uses the credit card number to debit the credit card account of the consumer. The consumer signs a receipt evidencing the transaction. The merchant keeps the original signed receipt and gives the consumer a copy of the signed receipt. The signed receipts are evidence of proof of purchase for both the consumer and the merchant (see., Segal, col 1, lines 14-28). Therefore, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the financial transaction of Foster by including the limitation detailed above as taught by Segal because this would allow an authorized person to act on behalf of the consumer and purchase goods or services.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the

Art Unit: 3621

invention was made to a person having ordinary skill in the art to which said subject matter pertains.

Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2 and 6 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Foster in view of Weber et al (U.S. Pat. No. 6,178,409).

Although Foster does not explicitly disclose the use of a VPN, Weber discloses a virtual private network between a gateway and a host processor that is established to expedite host communication (see., col 91, lines 50-61). Therefore, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to modify the system of foster to utilize a virtual private network as VPN is known to provide greater security when performing transactions.

RESPONSE TO ARGUMENTS

7. Applicant's arguments have been fully considered but they are moot in view of new ground (s) of rejection.

REMARKS

8. In regard to claims 2 and 6, Applicant argues that Foster and Weber cannot be combined. The Examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992).

The rationale to modify or combine the prior art does not have to be expressly stated in the prior art; the rationale may be expressly or impliedly contained in the prior art or it may be reasoned from knowledge generally available to one of ordinary skill in the art, established scientific principles, or legal precedent established by prior case law. In re Fine, 837 F.2d 1071, 5USPQ2d 1596 (Fed. Cir. 1988); In re Jones, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). See also In re Eli Lilli & Co., 902 F.2d 943, 14 USPQ2d 1741 (Fed. Cir. 1990) (discussion of reliance on legal precedent); In re Nilssen, 851 F.2d 1401, 7USPQ2d 1500 (Fed. Cir. 1988) (references do not have to explicitly suggest combining teachings); Ex parte Clapp, 227 USPQ 972 (Bd. Pat. App. & Inter); and Es parte Levengood, 28 USPQ2d 1300 (Bd. Pat. App. & Inter. 1993) (reliance on logic and sound scientific reasoning).

Also in reference to Ex parte Levengood, 28 USPQ2d, 1301, the court stated that "Obviousness is a legal conclusion, the determination of which is a question of patent law.

Motivation for combining the teachings of the various references need not to explicitly found in the reference themselves, In re Keller, 642 F.2d 413, 208USPQ 871 (CCPA 1981). Indeed, the Examiner may provide an explanation based on logic and sound scientific reasoning that will support a holding of obviousness. In re Soli, 317 F.2d 941 137 USPQ 797 (CCPA 1963)."
